Subject: Offering Net-metering to residential customers.....

To whom it may concern:

I am writing to voice my opinion about offering net-metering to residential customers in South Carolina. I think this proposal would be beneficial in many ways to the people of South Carolina. Currently, North Carolina offers net-metering to all its customers both business and non-business. Let's make this happen in South Carolina too!

Please don't let the power companies pay you off to discourage this from happening. SCE&G is too much a monopoly. They need to be kept in check!!!!

Sincerely,
Christopher of Columbia
